

Phonics Homework

In our phonics lessons we learn the different sounds that letters make. Each time your child learns a new sound they will bring home a homework sheet with activities to help them learn it. This will include reading and writing activities.

QR Codes

A lot of the activities are online and we have made a QR code for you to easily access them. You can download a QR scanner for free on your phone or tablet. This will then take you directly to the webpage for that activity!

Pronunciation

It is important that children are saying the sounds correctly. There is a song on each sheet to help them (and you!) learn how to say it.

Adobe Flash

Some of the games require a flash player to be enabled to access them. You should be able to do this on the popup.

Seesaw

If you would like to share any learning that your child does at home then please send photos and videos on seesaw!
